

Theta Chapter with Xinos & Kudos

Earth Day Service

2022

Goal: To provide a variety of activities that brings Joy and Enlightenment to Children and Adults.

Observing Earth Day: Goal to bring joy and enlightenment to both the Sorors and Children about how to inspire the Earth Day movement.

The Sorors will team up with the children to create an Earth Day poem or poster, to bring awareness about ways to help save our Earth or the beauty of our Earth.

- Each Chapter will give the Sorors and children an opportunity to demonstrate their created works of Arts with the group.
- • The Sorors and the children will keep their poster and poem to take home with them as a souvenir of the event.

Happy Earth Day From Theta Chapter, Brooklyn, NY

We loved on our Meeting House
on the Neighbors in the
Community!

Happy Earth Day From Theta Chapter, Brooklyn, NY

This Earth Day presentation is represented with a replica of earth. At the top shows white cotton which represents the clouds hovering inside the atmosphere. The blue that outlines the plate represents the water that covers most of Earth. Underneath the clouds is a replica of the United States with the Great Lakes at the top right. The green represents trees that border the continents or any forest or woodland areas that surround North America.

Kudos Jayden Ball

This presentation highlights the beauty of Earth from its blue skies to its crystal waters.

Xinos Meagan Vanzie

This drawing represents that the best way we can take care of our Earth is through service to both the environment around us. The people around the Earth represent togetherness and service to one another.

Earth day poem

Earth day
Biodiversity, pollution
Giving, helping, economy
So wonderful when moving
International Mother Earth Day

Kudos Bakari Moses

An Earth Day Conscious...

We are so Blessed to have Earth as our home.
It is beautiful in its shape, the most amazing dome.

In order to preserve this most precious gift from
God,
We must all be more aware,
Of how we use resources, from the ground and the
air.

Earth Day, should be every day.
Not just a thought, once a year.

So Think about ways to Reduce, Reuse and Recycle
And share in Earth Day Cheer!
